Krya

Fortify Your
Digital Defenses

Comprehensive cybersecurity solutions to safeguard your business from evolving threats.

In today's rapidly evolving digital landscape, safeguarding your organization's assets and data is more critical than ever. At Krya Solutions, our Cybersecurity Solutions provide comprehensive protection against emerging threats, ensuring your business operates securely and efficiently. With expertise across risk assessment, incident response, and proactive defense, we empower organizations to stay resilient in the face of cyber challenges.

Advanced security services and solutions from Krya

Risk Assessment - External
Gain a clear view of your external security posture with insights to strengthen defenses.

Security Architecture Review
Holistic evaluation of your networks, data, and cloud to identify and address vulnerabilities.

Cybersecurity Training
Customized training for awareness and industrial cybersecurity to meet your unique needs.

Cyber Risk Quantification
Assess your cyber risk exposure using proprietary tools and expert knowledge.

Virtual CISO
Expert security leadership for small and medium businesses without in-house expertise.

IT Security Audit
Review and enhance your IT infrastructure for a strong security foundation.

OT Security Audit
Identify vulnerabilities in critical operational technology systems like SCADA and PLCs.

VAPT - Web Applications
Detect and remediate vulnerabilities in your websites and web applications.

VAPT - Network
Assess and improve the security of firewalls, servers, and network devices.

VAPT - Mobile Applications
Secure your mobile apps by identifying and addressing potential gaps.

Firewall Implementation & Maintenance
Safeguard your network with robust firewall solutions and upkeep.

EDR as a Service
Protect endpoints with advanced anti-malware and ransomware solutions.

DLP as a Service
Prevent sensitive data leaks with effective data loss prevention strategies.

Backup & Restore Services
Ensure safe and reliable data backup with managed operational support.

Micro-Segmentation
Strengthen security by logically segmenting your data center workloads.

Incident Response Plan
Build a robust plan to detect, contain, and eliminate cyber threats effectively.

Protect your **data**, **infrastructure**, and **operations**.
Partner with Krya Solutions for end-to-end cyber protection tailored to your needs.
